EDUCATION

SRM Institute of Technology
Bachelor of Technology in Computer Science and Engineering

Chennai, Tamil Nadu
May 2027

- GPA: 9.34 / 10.0
- Specialization: Artificial Intelligence, Machine Learning, Data Science, and Computational Modeling
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Computer Organization & Architecture, Artificial Intelligence, Machine Learning, Statistics, Digital Twin Systems

EXPERIENCE

Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ), India
Data Analyst Intern (On-Site)

New Delhi
May 2025 – July 2025

- Maintained and enhanced the GIZ India Project Dashboard, ensuring accurate reporting across multiple sectors and regional programs.
- Developed Microsoft Lists-based tracking solutions to improve project visibility and reporting efficiency.
- Collaborated with cross-functional teams on data analysis, dashboard troubleshooting, and workflow optimization initiatives.

BrainMint Development
Frontend Development Engineering Intern (Remote)

Chennai, Tamil Nadu
Feb 2025 – July 2025

- Developed reusable React.js components and real-time data visualization interfaces for mission monitoring systems.
- Optimized frontend performance, reducing page load times by approximately 30%.
- Integrated telemetry and mission planning modules through collaboration with backend engineering teams.

PROJECTS

Solaris – Digital Twin Rocket Simulation

Jan 2025 – May 2025

- Developed a real-time digital twin rocket simulation using Unity and Arduino.
- Integrated ultrasonic sensors for altitude telemetry through serial communication.
- Implemented autonomous landing logic using Unity physics and C# scripting.

Zoom-iT – AI-Powered Food Delivery Platform [\[GitHub\]](#)

Feb 2025 – Present

- Engineered a full-stack food delivery platform enabling customer ordering, restaurant management, and real-time order tracking using React.js, Node.js, and MongoDB.
- Designed and developed RESTful APIs, secure authentication workflows, and database architecture to support scalable user, menu, and order management.
- Implemented machine learning-powered recommendation systems and search optimization features to enhance personalized food discovery and user engagement.

SmartCA – AI-Powered Chartered Accountant Assistant [\[GitHub\]](#)

Feb 2026 – Present

- Engineered a full-stack AI-powered financial advisory platform using React.js, Node.js, Python, FastAPI, and MongoDB to assist users with taxation, compliance, and financial planning.
- Integrated NLP pipelines, LLM-based query processing, and machine learning models to automate document analysis, financial insights generation, and personalized recommendations.
- Designed secure REST APIs, authentication workflows, and cloud-hosted backend services to support scalable user management and real-time financial assistance.

CERTIFICATIONS

- AWS Certified Machine Learning Engineer – Associate (2026)
- AWS Certified AI Practitioner (2026)
- AWS Certified Cloud Practitioner (2026)
- GitHub Copilot Certification – Microsoft Learn (2026)

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, C++, C, Kotlin

Frameworks & Libraries: React.js, Node.js, Flask, Spring Boot, Bootstrap, Tailwind CSS

Tools & Platforms: Git, AWS, Jupyter Notebook, Unity, Blender, Android Studio, IntelliJ IDEA, PyCharm, Visual Studio, Knime

Core Areas: Data Structures & Algorithms, Object-Oriented Programming, Machine Learning, Data Analytics, Full-Stack Development, Digital Twin Systems

LEADERSHIP & ACTIVITIES

Technical Head, Force Club – Apeejay School Panchsheel Park	Jul 2022 – Mar 2023
• Led technical operations and event management for school-wide technical festivals.	
SRMKZILLA	Aug 2023 – May 2024
• Organized and coordinated campus technical events as part of the Events Department.
